COURSE DESCRIPTION

The CIPP/E training from InfosecTrain helps you to learn the basics of data privacy and European data protection. It covers all the essential elements to understand and implement data protection laws and regulations. Achieving a CIPP/E credential demonstrates that you possess the in-depth GDPR knowledge, perspective, and understanding that is necessary to assure compliance and the success of data protection in Europe—as well as to take advantage of the professional opportunities that this comprehensive legislation affords

WHY EUROPEAN PRIVACY TRAINING?

With data breaches becoming highly sophisticated in recent years, the importance of data protection has also been increasing. As a result, the demand for Information Security and Data Protection professionals is at its peak. InfosecTrain's European Privacy training covers everything right from the official regulation of the GDPR to the key domains of the CIPP/E exam. The European Privacy training gives you an in-depth understanding of how to apply governing data collection, processing, and management.

WHY CIPP/E CERTIFICATION TRAINING WITH INFOSECTRAIN?

InfosecTrain is a proficient technology and security training and consulting organization across the globe, specializing in various IT security courses and services.
