

SC-900

Microsoft Security, Compliance, and Identity Fundamentals

CERTIFICATION TRAINING

KEY FEATURES

- Access to the recorded sessions
- Flexible training schedule
- Certified & Experienced Instructors
- Training support

Overview

SC-900: Microsoft Security, Compliance, and Identity Fundamentals certification training course is structured to make a candidate aware about fundamental knowledge of Security, Compliance, and Identity (SCI) concepts across cloud-based Microsoft solutions. The Microsoft Security, Compliance, and Identity Fundamentals certification training course at Infosec Train provides candidates with the training and tools they need to pass the SC-900 exam.

We all know that security is at the top of the priority list for effective digital environments and initiatives. This training course will explain the basics of security, compliance, and identity management. Candidates should be familiar with Microsoft Azure and Microsoft 365, as well as how Microsoft security, compliance, and identity solutions may be used to deliver a holistic, end-to-end solution across various solution areas.

Target Audience

SC-900 training course is intended for:

- Business stakeholders
- New or existing IT professionals
- Students who have an interest in Microsoft security, compliance, and identity solutions

Pre-Requirement

- Basic IT knowledge
- Basic concepts of cloud computing and networking
- Basic concepts of Identity, Compliance, and Security
- Familiarity with Microsoft Azure
- Familiarity with Microsoft 365
